LED Linear Batten Fitting

Easy Installation and Maintenance

Advances in luminous efficacy results in a delivered luminaire efficacy of 120lm/W. Designed as a direct replacement for conventional surface mount T8-Tubes across standard sizes of 1200mm, 1500mm & 1800mm, as well as suitable for new installations across a range of commercial applications. Conventional design for direct replacements of traditional technology - RAL White steel housing finished off with a frosted anti- glare PMMA optic/diffuser for subtle, uniform lumen output suitable for a range of commercial environments from office, corridor to retail with high CRI 80+. 2 piece body & cover design makes installation quick and easy, whether it be surface-mount (as standard) or suspension.
