Lamp Post Impact Guard Protector Bumper Barrier - Car Crash Protector for Street / CCTV Lighting Column Posts

£199.00

Lamp Post Impact Guard Protector Bumper Barrier - Car Crash Protector for Street / CCTV Lighting Column Posts - protect street lighting columns and lamp posts against vehicle damage such as lo speed bumps and crashes making them ideal for car parks, loading bays where nearby posts can be subject to high volume traffic and occasional damages, as well as critical when lamp post are installed in close proximiy to EV vehicle chargers, in which under BS 7671 (IET Wiring Regulations) for EV charger installations, section 722 (Electric Vehicle Charging Installations), lamp posts within reach of a charging point become a **simultaneously accessible conductive part and thus a sleeve / column protection is strongly advised.**

- Moulded from tough polyethylene –maintenance free complete with Diamond Grade Reflective Bands Can Be Seen in All Conditions Night and Day
- A 2 piece clam-shell designed protector - can be retrofit to existing columns simply place both sides around the base of the post and tighten with supplied bolts - No need to excavate and cast in
- Suits a variety of sized lamp posts up to 200mm max. For the most common size posts such as 140mm or 168mm bases, kit is supplied with high density foam bands to enclose and pack tightly against the column / fill any gaps
